OFFICE—No. 113 West Gold Avenue.

Address, THOM. RICHARDS, Proprietor.

ALBUQUERQUE, NOV 11, 1893

## VICTORY!

The Republicans have won a glorious victory. It reaches from ocean to ocean, and will be lasting in its effects. Now for a full-grown gathering for the state of New Mexico. We want to vote for McKinley in 1896.

(From the Daily, November 9.)

Dan T. Jones, a health seeker from Kansas City, head of the San Felipe, arrived last night.

Sheaf Vingers is getting ready to collect the new animal tax, and is posting notices to that effect.

Miss Nestor Arviso, of Las Cruces, arrived on last night's train. She took a drive about the city this morning to company with Mr. J. B. Arviso.

Don Rankin and family returned last night from Chicago, where they spent six weeks pleasantly at the great fair.

Last evening Rev. M. M. Moulton, in marriage Mr. George A. Brown, of Fort Apache, Arizona, and Miss Maude Albert, of Deming.

The Democratic sound a little election extra this afternoon. The column is not much worried over the result. He knew it would happen when he did not get the appointment for governor.

For three years Col. A. H. Meyers of the Boss saloon has sold the most beer during the annual territorial fair, and each year has carried off the South western brewery medal for the biggest sales.

This morning at 4 o'clock at the church of the Immaculate Conception, Alfredo Otero and Miss Candelaria Armijo were married. After the ceremony the happy couple left on the eastern train for a extended tour in the east.

Otoe Berger remarked that so far democratic rule had cheated him out of \$4,000, there being that much difference in the price of wool which he has to dispose of this fall to what he received for the same under republican administration.

H. L. Gilpin Brown, an invalid from Livermore, Colorado, accompanied by his wife, brother-in-law and nurse came in last night, and will remain this winter. It is hoped that our mild and healthful climate will restore him to health.

Felix Baas received a dispatch from Trinidad this morning, giving the cheering news that the democratic ring was hopelessly defeated at the election yesterday. This is the first time in twenty years that the democrats have been defeated at Trinidad.

**Patronize the Deserving.**  
The people of the city should patronize those people who live and spend their money here, and who are interested in the upbuilding of the community, in preference to those who do but little of the former and whose presence here is in no way a benefit to the city. Why people will patronize Chinese laundries and restaurants when there are worthy citizens engaged in the same lines of business, whom they might give their business is beyond understanding. It is good policy to help those who help you and the town in which your interests are centered.

**Bon H. R. Whiting's Report.**  
Hon. H. R. Whiting, of Albuquerque, superintendent of schools for Bernalillo county, is entitled to the distinction of presenting to the territorial superintendent of public instruction the most complete report yet received. It is full of statistical information, systematically arranged, relative to the public schools of Bernalillo county, and which show at a glance the splendid progress the cause of education has made therein under Mr. Whiting's faithful supervision. In addition to the ordinary report there are a number of suggestions and recommendations which will aid materially the territorial superintendent of public instruction in making up his annual report—New Mexican.

**Mad Suicide.**  
The San Matias Bee gives the following particulars of the suicide of Mrs. Dora M. Mealy, which took place at Rincon last week.

She left no note of explanation of the rash deed, and in her usual health with the exception of a slight headache. She entered her boudoir, ostensibly to lie down a while, as she told her sister, Mrs. Abram Teffer, who after a short time desiring to show her a letter, went to Mrs. Mealy's room and called her. Receiving no answer, she pushed open the door and there her horrified gaze saw the deceased sitting on the floor with her head resting against a trunk and the wall, with a bul-

let hole in the right side of the head, from which the brains were oozing; upon the sight of which she gave a shriek and ran back to the parlor where she had left a neighbor, Mrs. L. S. Jones, sitting, while she went to show the scene to her sister. The only clue to be found was the photographs of her husband and daughter, which were in the east, lying in the bed. The pictures and the pistol were kept together in a stand drawer.

The only theory to be advanced in the premises is that while viewing the likeness had just seen she was seized with a sudden fit of despair, and the pistol being in sight, she seized it and pressing the trigger to her own temple pressed the trigger and thus ended all her earthly care and trouble.

The pistol, by Remington, double barrel, was pressed so tight to the head that it crushed the skin instead of the bone, making a small hole as it would if held a little distance away. The report was smothered so that the person sitting in the front room, which is not more than twenty feet away from the room where the shot was fired, did not hear it. Believers who may, note that herself and her Create a ghost?

The funeral was held on Wednesday and the remains laid to the rest that knows no waking. A large concourse of relatives and friends were in attendance.

### DISTRICT COURT.

The last few days of Judge Davis' term have been very busy ones. The principal cases passed square the following:

In the case of the city of Albuquerque vs the Albuquerque Water Supply company and the Albuquerque Gas company, were called upon motion of Mr. Chidren, attorney for the respective companies, for dismissal, on the ground that the suits were improperly brought, the city not having proper authority to bring the same. The court stated that since it appears that the city council had rejected the action of the city attorney, the cases would be dismissed, unless within fifteen days the city attorney could show the authority or the council to bring the same, and that the costs of the proceedings be taxed against the city attorney.

In the case of M. S. Otero vs Josefa de la Santis, motion to set aside the default was overruled.

In the case of Frank vs. R. H. Eggers, judgment against claimants, W. E. Larson and, was rendered for \$24.

Heiden Hawley vs Jos. R. Hawley, divorce case, motion of complainant to file supplemental bill was granted, and the case referred to Summers Burkhardt to take proofs.

Judge Chidren's commission not yet having arrived, by courtesy of Judge Lee and consent of counsel, the cases of the appeals taken from the probate court of Valencia county in the matter of the estate of Tesofor Jaramillo, were taken up before him. The appellant, Mrs. Cecilia Jaramillo, one of the administrators alleges that certain claims allowed by two co-administrators, were not proper charges against her husband's estate.

In the case of Leandro Gallegos vs. Frank Herring, et al., was rendered as ordered by the court at the last term, with costs to be paid out of funds in the receiver's hands.

### Bad and Sudden Death.

The saddest death which has occurred in this city, for many a day, was that of Mrs. G. B. Farrell, which occurred about 7 o'clock, last evening. At about 1 o'clock in the afternoon, Mrs. Farrell gave birth to a daughter, and in less than six hours afterward, she was dead. No premonitions had been given, no dangerous symptoms encountered, till an hour or two before death ensued. Mr. Farrell was in deformity, but a telegram reached him in time, and he started for home the morning. What disposition will be made of the remains cannot be known till he arrives. Three children survive the mother, a boy, a girl, and the infant just born. These have been taken charge of by different friends, the infant being at Mrs. James Milligan's. Mrs. Farrell was a true and affectionate wife, a kind and tender mother. She was the mainstay of her husband, who is a consumptive invalid, and who is bereaved indeed by her loss.—Las Vegas Optic.

### Deming's Railroads.

The Southern Pacific running into El Paso, eighty miles southeast and easterly, and the Silver City branch of the Santa Fe system, touch Deming, and considerable passenger, freight and stock traffic is handled at this point like all towns. Deming wants another railroad, and the project is long talked about, of establishing a line into Mexico, is still hoped for. The present systems tapping the city are apparently opposite in their relations to each other, so that Deming is not under control of one road, as some towns are prone to put it. With closer relations to Albuquerque, Deming will be "natively in it," a second Denver, as it were, as many towns in the southwest are disposed to style themselves.

### Respite and Canage.

The mesquite root is found in unlimited quantities in the valley, and Mexicans clear from \$2 upwards per day in its delivery. This root is almost wholly used as fuel, and two cords for \$4 is said to be equal to a \$7 ton of coal.

Those who visited the late fair in Albuquerque had a good deal about canage, which is being utilized here, a company northeast of Deming and scarcely two miles, extracting from it the material for tanning, which is shipped east and abroad. Extended mention of the Tanning Extract company, one of several enterprises that Deming is receiving a benefit from, is omitted at this time, but on another visit to the city, a complete statement of the industry will be presented.

Mr. W. M. Terry, who has been in the drug business at Elko, Ky., for the past twelve years, says: "Chamberlain's Cough Remedy gives better satisfaction than any other cough medicine I ever sold." There is good reason for this. No other will cure a cold so quickly; no other is so certain a preventative and cure for croupine; no other affords so much relief in cases of whooping cough. For sale by T. H. Burgess & Son, druggists.

### THE WATER QUESTION.

Disposition of this Important Case by Judge Lee.

The following is a copy of Judge Lee's order in the water works suit:

City of Albuquerque vs. Albuquerque Water Company and Water Supply company of Albuquerque, N. M.

This cause coming on to be heard upon and after motion to dismiss the same, and the affidavits and documents attached to the same, being copies of the records of the city council of the city of Albuquerque, and having heard counsel, the complaint by the city attorney, the defendant by W. H. Chidren, Esq., and the court being fully advised in the premises, and of the facts, the statements contained in the affidavits and the accompanying documents, the court doth order that the complainant's suit, the city attorney, be required to file further authority from their city council authorizing him to prosecute, and suit within fifteen days from the date of this order, otherwise that said cause be dismissed at cost of complainant and his attorney.

W. D. Lee, Judge.

Now, it looks like a blowup a tree as if there was something wrong about this water question. The people here have complained for years about the exorbitant water rates and several city administrations have investigated and ascertained that the municipality has practically no remedy against the Water company, which claims to have an exclusive franchise for twenty-five years.

During the last session of the legislature the attorney for the Water company labored through a bill providing that all franchises against whom suits were not brought within six months should be held to be good and should not be subject to attack. Mayor Field could not get authority from our city charter to sue the suits to test franchises given out by former administrations in this city, so he caused suit to be filed of his own motion.

Now Mr. Chidren, an alderman comes in as attorney for the persons claiming these franchises and gets a conditional dismissal of the suits as can be seen by the above order. It looks odd. Are the Water company and the Electric Light company afraid to have the validity of their claimed exclusive franchise tried in court? The people will wait to see whether or not within the next fifteen days the democratic aldermen will vote to dismiss these suits and then go back on the platform on which they were shot. Aldermen Pratt and Rankin have always been for the people in these matters. If these claimed franchises are good and exclusive the corporations claiming them will be sustained by the courts, if they are not then it is wrong for our city administration to permit the limitation period of a special act of the legislature to give them life. The people are on the watch.

### TAX PAYABLE.

(From the Daily, November 9.)

Joe Barnett, one of the proprietors of the popular St. Elmo, has returned from an eastern trip.

Judge L. S. Trimble has returned from the World's Fair, and he is not surprised at the result of the state elections.

Mrs. L. H. Schellenger returned from Pittstown, Pa., where she has been visiting her mother for the past seven months.

Mrs. Rita Granger, who is seriously ill at her home on south Broadway, was thought to be resting somewhat easier this morning.

Yesterday Jane Hunt made a hasty examination of the coal prospects in Tijeras canon. He is looking for a coal mine, and wants one near the city.

The city school board have no money, they say, to pay the teachers, but at the last meeting they ordered \$1,000 worth of school desks and furniture. Pay the teachers!

The Daughters of Rebekah gave an oyster supper last night at the I. O. O. F. Hall. The生物es as well as the accompanying socialities were greatly enjoyed by all present.

S. E. Ulrich has returned to Manzano, having purchased a stock of goods from the Senator mine to the mill. The ore was fairly good and ought to pay well if enough is run.

If water sufficient is struck in the mine of the Music Mountain company a good mill will be erected to work the ore in that vicinity, so we are informed.

William Engle is still sick on the main shaft of his mine in the Cedar mountains. He will probably reach the tunnel level in about two months.

Jack Little has some valuable gold

claims near Cerbat that could be profitably worked if there was a custom mill in that neighborhood where the ore could be worked.

Many prospectors are packing their bags into the mountains along the Colorado river in quest of gold.

This winter will bring forth some rich properties from that section.

We understand that the Ark mill will be erected in a short time. Carpenters and machinists will go out to the mine the coming week and inaugurate the good work.

Thomas McMahon came in from Layne Springs Monday afternoon. He says that himself and W. W. Clark have a good showing of ore and also have a nice shipment on the dump of Rip Van Winkle mine.

Mr. Mix was in from Wallapai mountain this week. He says that he will put a small smelter in Wallapai mountain next spring to work his own ore. There is all kinds of fluxing material in the mountains and plenty of timber from which charcoal can be made.

There are several good gold properties in Gold Basin owned by R. G. Patterson and the estate of the late Sol C. Rowe. Some of them are immense big ledges that will average about fifteen dollars per ton, while the smaller ledges will run much higher.

We understand that the Ark mill will be erected as a breaker on. Mr. Brown, who is well known here, is coal agent at El Paso for the Santa Fe.

Hon. Trinidad Romero, late chairman of the irrigation convention, stopped at Socorro and came up last evening, and will remain in the city to-day and leave in the evening for Las Vegas.

W. E. Kuchenbecker, who attended the grand lodge at Deming, and rose from private to grand master, had business to transact at El Paso yesterday and will be up this evening to make the outgoing train.

The New Mexican says: The territorial adjutant general yesterday shipped twenty uniforms and other militia paraphernalia to the Albuquerque city band, which has been designated by the governor the regimental band for the International Irrigation Congress. They can do the work if anybody can.

The new time tables for November issued by the roads centering here do not indicate any change in the time schedules that of the Santa Fe system, 3346 miles, is made very comprehensive in its new form and all should have it. The folder styles the Santa Fe as the "greatest railroad in the world."

Dr. L. H. Chamberlain, who was elected grand master of exchequer, Knights of Pythias, remained at Deming until today in order to settle matters of finance with the aid of Grand Keeper of Records and Seal Perry, and the retiring officers in the same ranks. The doctor will be here for promotion.

### THE PENITENTIARY.

The Commissioners Decline to Convene in New Mexico.

The board of penitentiary commissioners resumed its session at 2 o'clock yesterday afternoon, there being present President H. H. Betts, of Grant county; Secretary N. B. Laughlin, of Santa Fe county; and Messrs. R. A. Baca, of Valencia county; Thomas McQuistion, Rio Arriba; J. L. Lopez, San Miguel; W. E. Dame, Santa Fe; Ex-Governor Hadley, of Mora county, was absent. The condition of the territorial finances, owing to the public funds being tied up in the defunct Albuquerque National bank, was discussed at length. It appears that there are no funds with which to pay the penitentiary bills, and a resolution was adopted providing that all vouchers shall bear interest at the rate of 12 per cent per annum until paid, such interest to run from the date of approval of the account by the board.

A resolution was adopted substituting a trial lot of Taos county flour for the Colorado product—in the interest of home industry.

The board confirmed Supt. Bergman's nominations as follows:

Daily cell keeper, Nestor Montoya; night cell keeper, J. Tapia; captain night guard, G. W. Chapman; captain night guard, David McPherson; guards, J. J. Chandler, J. J. Davis, C. Gonzales, L. Constantino, R. Muniz, Cosme Herriges, O. L. Merrill; assistant cell keeper.

The nomination of Tranquillo Labide, of Las Vegas, to be assistant superintendent, the board declined to confirm by a vote of 5 to 1, only Mr. Basa voting ay.

It is understood that this is the result of a personal appeal made to members of the board by Mr. Lopez, the San Miguel county member, who appeared to regard Mr. Labide's nomination somewhat in the light of a personal and political affront. The position of assistant superintendent will therefore remain vacant for the time being at least.

The members of the board made a thorough inspection of the building and grounds and found everything in apple-pie order. The records show that it costs but 10 cents per day per capita to feed the inmates at present. The cellars are full of vegetables raised on the grounds and fifty head of hogs will be slaughtered next month, so that the running of the penitentiary on a very economical scale throughout the winter is assured.

(From the Daily, November 10.)

Miss Josephine Spitzl of Chicago, who spent last year in the city, is expected to return to-morrow for the winter.

The wife of George Brown of Bullock & Baker's presented him with a ten pound diamond this morning at 10 o'clock.

There are great many good veins of mineral in the Cedar country that if opened up would continue to produce pay ore for twenty years to come.

Beetle's big teams are now hauling ore from the Senator mine to the mill. It will "hustle" them to keep a supply of ore ahead.

There are a great many good veins of mineral in the Cedar country that if opened up would continue to produce pay ore for twenty years to come.

John Griffin has several tons of ore on the dump of the Blackfoot mine ready for shipment to Kingman.

</
